The court declines to sign this Order to Show Cause (OSC), brought by investors Monarch Alternative Capital LP, Stonehill Capital Management LLC, Bayview Fund Management LLC, CQS ABS Master Fund Limited, and CQS ABS Alpha Master Fund Limited (jointly "the Investors"), to: (1) intervene in this Rehabilitation proceeding pursuant to CPLR 1012(a)(2) or (3), or CPLR 1013; and (2) conduct limited and expedited discovery pursuant to CPLR 408.

#### Procedural History

This is a rehabilitation proceeding, brought under New York Insurance Law (NYIL) Article 74, in which a rehabilitator of Financial Guaranty Insurance Company (FGIC) was appointed without objection, by order dated June 28, 2012. Pursuant to such appointment, the rehabilitator proposed the Plan of Rehabilitation, and thereafter the First Amended Plan of Rehabilitation. Numerous objections to the proposed plan were filed with the court by interested parties. After much negotiation between the rehabilitator and the interested parties, all objections were settled or withdrawn prior to the hearing date scheduled for oral arguments on approval of the proposed plan. Thus, this court approved, without objection, the First Amended Plan of Rehabilitation for FGIC by order dated June 11, 2013.

FGIC currently seeks this Court's approval of a tentative settlement agreement (mot. seq. no. 016), negotiated in the Bankruptcy case of Residential Capital (Bankruptcy case), and entered into on May 23, 2013. Approval is also being sought in the Bankruptcy case, as approval by both courts is necessary. Three objections to such settlement agreement were received by the court on July 16, 2013. By this OSC, the Investors, having previously filed their objections, now move to intervene in this special proceeding, and seek limited discovery.

#### Intervention in Special Proceedings

The Court notes that it is undisputed that this Rehabilitation proceeding is a special proceeding governed

by Article 4 of the CPLR. As such, the court declines to sign the Investors' OSC to intervene in this proceeding, as CPLR 1012 and 1013 specifically govern intervention in *actions*, rather than special proceedings. In fact, both statutes specifically use the words "[u]pon timely motion, any person...[is] permitted to intervene in any action..." See CPLR 1012(a) and 1013. Thus, by the language employed, limiting intervention to an "action", such statutes are inapplicable here.

The Court notes that nowhere in NYIL Article 74, which governs this special proceeding, does it permit intervention. This is in contrast to Article 78 (which is also a special proceeding governed by CPLR Article 4), which does specifically provide for intervention: "[t]he court...may allow other interested persons to intervene." CPLR 7802(d). The absence of such corresponding language in the NYIL Article 74 rehabilitation statute indicates that the Legislature did not intend for intervention in such rehabilitation proceedings. Similarly, CPLR Article 52, a special proceeding, also specifically permits intervention in CPLR 5225, 5227, and 5239, unlike a rehabilitation proceeding. See Breezevale Ltd. v Dickinson, 262 AD2d 248 (1st Dep't 1999).

Moreover, the Investors filed objections with the court on July 16, 2013 (which they now seek to be deemed their proposed pleadings pursuant to CPLR 1014). The Investors need not seek intervention in this proceeding in order to voice their objections, as such objections were filed, received and shall be considered. As such, this OSC to intervene is deemed moot.

#### Discovery in Special Proceedings

Further, as to the request for limited discovery pursuant to CPLR 408, the Investors concede that there is no automatic right to discovery in special proceedings. Moreover, in seeking discovery, the Investors have failed to detail the discovery sought, or provide copies of any document demands, and, thus, this court is unable to determine whether such requested discovery is necessary and material, and narrowly tailored to clarify any allegedly disputed facts. *See New York University v Farkas*, 121 Misc.2d 643, 647 (Civ. Ct. N.Y. Cty 1983). Moreover, the Court notes that, according to movant, it is already engaging in ongoing discovery in the Bankruptcy case, and movant has not explained why discovery, if permitted here, would not be duplicative and merely serve to delay this summary proceeding.

#### Standard to be Applied in Approving the Settlement Agreement

The Investors claim that the proposed settlement agreement "is not fair and equitable to the Investors", and, thus should not be approved by this Court. However, such claim ignores the standard which must govern the decision-making of this Court on whether to approve the tentative settlement agreement. The Rehabilitator is tasked with ensuring that the best interests of FGIC's policyholders as a whole are served. See Corcoran v Frank B. Hall & Co., Inc., 149 AD2d 165 (1st Dep't 1989). Thus, the standard to be applied in determining this Court's approval of the settlement is whether the Rehabilitator acted arbitrary and capriciously, and abused his discretion in determining that the settlement agreement is in

the best interests of FGIC's policyholders as a whole. *Id.* Such standard is different than that which the Bankruptcy court will employ and the Investors' specific concerns can be raised there.

265	2355	12/6/2012	Notice Of Debtors' Motion For The Entry Of An Order Further Extending Their Exclusive Periods To File A Chapter 11 Plan And Solicit Acceptances Thereof	¶ 11. Additionally, as discussed below, the Debtors intend to request the appointment of a mediator to assist the plan negotiation process and ensure that those with a seat at the table are in the best position for disciplined, good faith discussions that are focused on the appropriate issues. The Debtors are optimistic that a plan mediator will aid in the negotiation of a consensual plan despite the divergent interests of the major stakeholders.
				¶ 4. Moreover, as the Court is aware and as noted above, the Debtors have on several occasions advised that they intend to request the appointment of a mediator to assist in the resolution of certain complex issues important to the confirmation of a Chapter 11 plan. Various major stakeholders have advised the Debtors that they support a mediation process. The appointment of a mediator will allow for an independent third party to ensure that parties are making material progress. The scope of the mediation would likely concern, but not be limited to, the amount and allocation of any proposed settlement with AFI and other interdebtor and intercreditor disputes. The Debtors believe the presence of a mediator will facilitate disciplined negotiations in connection with those issues.
				¶ 55. The Debtors have taken steps to put mechanisms in place, including providing information to all parties requesting a seat at the table, engaging in meaningful discussions with those parties and taking steps towards the appointment of a mediator, to help facilitate a consensual resolution of the issues.

Because certain of the Debtors' creditors are critical of the Debtors' historical relationship with Ally Financial Inc. ("AFI"), the Debtors believe it is important to appoint an independent CRO to direct these plan discussions and lead the Debtors in the ongoing mediation. As such, the CRO will: (i) lead the Debtors in plan mediation and assist in the formation of a Chapter 11 plan; (ii) assist in the resolution of inter-estate claims;
				¶ 16. On December 26, 2012, the Court entered an order appointing the Honorable James M. Peck as mediator (the "Mediator") to assist in the structuring of a Chapter 11 plan and to assist in resolving other related disputes [Docket No. 2519].
				¶ 19. The Debtors believe that the CRO will be able to provide the necessary restructuring experience to spearhead aggressive plan negotiations, lead the Debtors in plan mediation, and perform the CRO Duties.
				¶ 20. The Debtors believe that the CRO will provide invaluable assistance during the ongoing mediation process and to lead the plan negotiations with the goal of reaching a consensual Chapter 11 plan
				¶ 25 The Debtors believe that Mr. Kruger's vast restructuring experience will be invaluable in leading plan negotiations and in the ongoing mediation.
				¶ 26. The Debtors anticipate that the CRO will assist the remaining members of the Debtors' management team with the following responsibilities:  - Communicate and negotiate with major stakeholders;  - Participate in plan mediation, plan-related negotiations and provide assistance in all aspects of the plan process;
				West Declaration in support, ¶ 5 However, the Board believes that a business level leader with significant restructuring experience to spearhead the plan negotiations process, including representing the Debtors in mediation, is necessary to reaching a consensual Chapter 11 plan.

			Acceptances Thereof	Exclusivity Hearing, the Court appointed the Honorable Judge James M. Peck as mediator (the "Mediator") for an initial term through and including February 28, 2013. Mediation commenced shortly after the Mediator was appointed.
				¶ 10. Progress has also been made in the context of the ongoing mediation. When the Debtors sought the appointment of a mediator, they wanted to put in place a mechanism in aid of the plan negotiations process. The Mediator was appointed on an interim basis, through and including February 28, 2013. While the mediation has not yet resulted in resolution of key plan issues thus far, it has been successful in getting creditor constituencies to the negotiating table and initiating meaningful settlement discussions
				¶ 11. The above-mentioned mediation sessions and daily discussions among key parties have prompted parties to begin negotiating the terms of a consensual plan
				¶ 12. The CRO will spearhead the plan process and provide the Debtors with an additional independent voice with restructuring expertise essential to negotiate and settle the complex issues necessary to forge a path to a consensual plan, including, but not limited to, (i) representing the Debtors in mediation and claims litigation,
				¶ 24. On December 26, 2012, the Court entered an order approving the appointment of the Mediator [Docket No. 2519].
				¶ 40 At the Second Exclusivity Hearing, the Court appointed the Mediator. Following his appointment, the Mediator met with the Debtors' major stakeholders.
				¶ 42. An extension of the Debtors' Exclusive Periods should be granted so that parties can continue to make progress in the mediation. The Debtors' key parties in interest consist of constituents with very different views. Negotiating a consensual Chapter 11 plan is not an easy task. Major stakeholders have participated in the mediation While mediation has not currently brought about consensus on plan issues, it has focused parties and forced them to engage in substantive negotiations.
				¶ 43. Even if mediation concludes without a consensual plan, the Court should extend the Exclusive Periods. Mediation has crystalized for the Debtors the discrete claim issues that must be addressed going forward
				¶ 54 The Debtors believe that continuing the momentum garnered during the Second Exclusivity Extension and through the ongoing mediation is likely the only avenue for these estates to exit Chapter 11 pursuant to a confirmed plan.

For the past two months, the Ad Hoc Group has patiently participated in a plan mediation process that has, to date, not resulted in the global compromise envisioned by the Court at its inception. Perversely, these well-intentioned efforts to achieve consensus through mediation have seemingly emboldened certain parties to harden their negotiating positions, secure in the knowledge that the Debtors' present plan construct – with its non-consensual third party release provisions with Ally – remains the only show in town. Even the best efforts of a sitting bankruptcy judge and experienced and respected mediator have been unable to break this impasse.
				Page 4: The Court implicitly relied on the Adelphia factor focusing on progress in plan negotiations in granting the Debtors most recent request for an extension of exclusivity, hoping that the simultaneous appointment of a mediator could spur a breakthrough. See Dec. 20 H'rg Tr. at 44:15-45:17 (Glenn, J.) (stating that debtors had satisfied Adelphia factors and focusing on progress of plan negotiations); ld. at 53:16 – 54:1 (Glenn, J.) (expressing hope that mediator could "close the gap" between negotiating parties). The Court also expressed hope that the prospect of "nuclear war" absent a global deal could spur progress by encouraging parties to compromise on their negotiating positions. See id. at 45:3-19 (Glenn, J.).

When the Debtors last sought an extension of exclusivity, the Debtors and the Committee were hopeful that the parties, with the assistance of Judge Peck, as mediator, could move towards a prompt consensual resolution of these cases. Until recently, there seemed to be reason for encouragement that the mediation would bear fruit. Unfortunately, that has not been the case. Despite the Committee's significant efforts over the past two months, the mediation has stalled  ¶ 3. Coming close on the heels of the stalled mediation, the Motions were initially received with skepticism by the Committee. ,,,  ¶ 6. At around this same time, the Debtors filed their second motion for an extension of exclusivity. In connection with the resolution of that motion and an extension of the Debtors' exclusivity period to February 28, 2013, the Debtors and the Committee agreed to the appointment of a mediator, the Honorable Judge Peck (the "Mediator"). The parties also agreed to adjourn consideration of the Debtors' motion to approve the settlement relating to the claims of certain residential mortgage backed securities trusts (the "RMBS Trust Settlement") in order to permit the Mediator and the parties to explore a global resolution of the case.
				¶ 7. In part due to the appointment of the Mediator, the adjournment of the hearing on the RMBS Trust Settlement, and an agreement among all parties to work constructively

			_	towards a global resolution of these cases, the Committee and the Debtors ultimately determined to defer the issue of appointing a CRO.
				¶ 8. After the appointment of the Mediator, the Committee and Ally agreed to prepare comprehensive legal presentations regarding the arguments for and against estate claims and causes of action that could be brought against Ally. As this Court is aware, the Committee (in addition to the Examiner) has spent a significant amount of time investigating the causes of action—including reviewing millions of pages of documents and conducting extensive legal research—and developing a lengthy and thorough exposition of the claims. Through a series of meetings held on January 8, 9, and 17, 2013, the Committee's professionals delivered their oral and written presentation to the Mediator, Ally, and the Debtors, respectively. On January 22, 2013, Ally delivered an extensive responsive presentation to the Committee.
				¶ 9. Following this exchange of presentations, on January 30, 2013, the Committee provided Ally with a global settlement proposal contemplating estate and third party releases that the Committee believed would facilitate negotiation of a consensual chapter 11 plan. In early February, the Committee was informed that mediation was stalled.
				¶ 12. Now that the mediation has stalled and Ally appears to be unwilling to negotiate at this time, these cases are at an important juncture
				¶ 14. Debtors' consent to standing. In light of the stalled mediation, the Debtors have agreed that they will consent to any motion made by the Committee seeking standing to pursue estate causes of action against Ally and its non-Debtor affiliates The Committee's standing motion will be based largely upon the extensive analysis it has already provided to the Debtors, Ally and others in connection with the mediation, as well as its continued review of the documents in the Examiner's depository.
				Exhibit A, Terms of Agreement, ¶ 9. The CRO shall propose a framework for the prompt resolution of the major categories of disputed claims in the case, through negotiation (and possibly mediation) and, if necessary, through litigation.

The Trustee remains concerned about the status of these cases, particularly the stalled mediation, and the multiple positions the Debtors have taken to the detriment of Residential Capital's creditors  ¶ 4 The mediation ordered by the Court in December 2012 was intended to seek a consensual resolution of such claims, as well as other estate and third-party claims against AFI. Despite the efforts of the Committee and the Trustee to engage in a constructive dialogue, AFI is not engaging in dialogue. As a result, the mediation is stalled. Absent significant progress in the mediation over the next 60 days, litigation against AFI and other third parties will be the clearest path toward a resolution of these cases.

Under the guidance of the Mediator Although the mediation has not been successful in global resolution of the AFI Settlement thus far, and despite conflicting suggestions made by parties in the Responses, progress has in fact been made under Judge Peck's watch, and mediation is ongoing. Whatever temporary hiccups may have occurred during the Mediator's initial term, the Debtors decline to cast blame on any stakeholder. The Mediator has continued to meet with various parties in interest, and the Debtors are hopeful that the continuing mediation will result in the resolution of important plan issues.  ¶ 3. Mr. Kruger will play a vital role in the ongoing mediation and plan process.  ¶ 6 In the Securities Objection, the JSBs promote the mediation, characterizing it as "ongoing" and request in the Securities Objection that the Court not "upset the nature of the ongoing plan mediation." See Securities Objection at 5.  ¶ 9 The statements made in the JSB Objection are in direct contradiction to the statements made in their Securities Objection filed just three days earlier, in which the JSBs recognize the efforts made in mediation. In the Securities Objection, the JSBs oppose the relief requested in the underlying motion so as not to "upset the nature of the ongoing plan mediation." See Securities Objection at 5. They further state, that "Indeed, as part of the ongoing mediation process being administered by Judge Peck, there are ongoing discussions between the Debtors and their key creditor constituencies over multiple potential plan structures, and the precise contours of any plan of reorganization for these chapter 11 cases, to the extent such a plan ever arises, remain uncertain." See Securities Objection at 4. Conversely, in the JSB Objection, the JSBs belittle the efforts made during the mediation and state that a plan based on the AFI Settlement "remains the only show in town." See JSB Objection at 3.  ¶ 10. The JSBs also criticize the mediation because principals of the group have not partic

				participate, it was because they were unwilling to be bound by reasonable confidentiality restrictions, not because the Debtors failed to give them an opportunity to participate. Principals apparently want flexibility to continue to trade in and out of the Debtors' securities. Mediation, however, demands commitment to the plan process.

And Ally Bank Regarding The Debtors' Motion For The Entry Of An Order Further Extending Their Exclusive Periods To File A Chapter 11 Plan And Solicit Acceptances Thereof And The Debtors' Motion For Appointment Of A Chief Restructuring Officer	¶ 2. Ally also believes that this Court's approval of a plan mediation process was very constructive. The appointment of Judge Peck as the mediator has been a positive and productive development, and Ally appreciates the hard work and substantial time that Judge Peck has devoted to these cases to date. Ally entered into and has participated in the plan mediation process in good faith. Both counsel for Ally and Ally's chief executive officer have met with Judge Peck on numerous occasions in person and by telephone. Ally understands from the Debtors that Judge Peck is willing to continue in this role, which will only benefit parties seeking a consensual conclusion to these cases.
				¶ 4. Yet, Ally is still hopeful that, with the assistance of the mediator, a largely consensual plan with full third-party releases can be accomplished
				¶ 6. Further, contrary to the statements made in the Responses, Ally has not disengaged from or "stalled" the mediation process. Rather, Ally has steadfastly maintained its willingness to continue negotiations and met with the mediator numerous times, as recently as last week
				¶ 9. The Debtors now look to another third party — the proposed chief restructuring officer — to help them address chapter 11 plan issues and intercreditor disputes (but not manage the wind down of the estates' operations post-sale, it would appear). This is a confusing approach given the past two months of mediation and the significant time before then that the Debtors have had to address such issues. To be clear, Ally is supportive of the Debtors' request for a further extension of their statutory exclusivity periods and does not oppose the appointment of the chief restructuring officer. Ally hopes that the Debtors' appointment of the chief restructuring officer, coupled with the Debtors' counsel, their financial advisor, and the mediator, will finally enable the Debtors to advance the chapter 11 plan process, after spending so much time and money to get to this point.

And Ally Bank For An Order Enforcing The Automatic Stay Pursuant To 11 U.S.C. § 362(A)(3) By (1) Enjoining Prosecution Of Alter Ego And Veil Piercing Claims In The Class Action Entitled Landon Rothstein, Et Al. V. GMAC Mortgage, LLC, Et Al., And (2) Declaring Such Claims Void Ab Initio	¶ 2 Simultaneously, the parties – including the Debtors, AFI, the Committee, and certain major creditor constituencies – have been, with the assistance of the Honorable James M. Peck, as mediator, engaging in a mediation process,  ¶ 7. Regardless of whether the automatic stay under section 362(a) applies in its own right to enjoin the Rothstein actions, the damaging impact allowing the Rothstein litigation to proceed could have on the bankruptcy proceedings at this time warrants an exercise of the Court's power under Section 105 of the Bankruptcy Code to extend the automatic stay to apply to the claims against AFI and its nondebtor affiliates pending the ongoing mediation process and investigations  ¶ 10. Second, permitting the litigation to proceed would disrupt crucial efforts underway in these chapter 11 cases, including the substantial plan negotiation and mediation efforts expended by all parties in interest and major creditor constituents, as well as the efforts of the Committee and the Examiner to investigate claims and causes of action against AFI. The mediation process has largely revolved around a resolution of the primary disputes with AFI,  ¶ 11 Not only are settlement negotiations critical to the successful resolution of the chapter 11 cases, given that plan mediation and negotiations are focused on AFI-related issues including third-party claims against AFI similar to those asserted by the Rothstein Plaintiffs, if a global settlement is reached it may obviate the need for a determination on the Rothstein claims against AFI altogether. This reason alone warrants an extension of the automatic stay to the claims asserted by the Rothstein Plaintiffs against AFI on an interim basis pending the ongoing plan mediation and investigations.  ¶ 13. Here, each of these factors is satisfied and the Rothstein action should be
				stayed. First, as noted above, the Committee and other parties in interest are engaging in plan mediation in an effort to reach a consensual chapter 11 plan, but are prepared to proceed with litigation if a consensus cannot be reached  ¶ 14Allowing the action to go forward while AFI and third party claims against AFI are still under investigation and subject to an ongoing mediation process would be inappropriate, especially if the mediator is successful –

				2013. Mediation commenced shortly after the Mediator was appointed. On March 5, 2013, the Court entered an Order extending the Mediator's term through and including May 31, 2013 [Docket No 3101].
				¶ 3 The Debtors and all of their major creditor constituencies are now busy preparing for a global mediation summit that Judge Peck has scheduled d for next week in an attempt to bring the parties together to reach consensus on the important issues. The Debtors are cautiously optimistic that the global mediation summit will drive creditors to compromise, recognizing that the alternative is, as this Court put it, close to "nuclear war."
				¶ 6 After consultation with the Mediator and the mediation parties, the Debtors have delayed filing these pleadings. However, if the global mediation summit does not result in consensus, the Debtors intend to file promptly these pleadings to request that the Court adjudicate the Gating Intercreditor Issues. Furthermore, the Mediator has agreed to assist the Debtors and the Creditors' Committee (defined below) to work together towards the achievement of a consensual Chapter 11 plan without any AFI Settlement.
				¶ 23 As set forth in the Kruger Declaration, the roadmap involved: (a) the provision of updated business and financial information, (b) formal and informal meetings with creditors, and (c) mediation The Debtors and their key creditor constituencies have continued to make progress in the ongoing mediation.
				¶ 24. As described in the Kruger Declaration, the provision of information, mediation, and the dedication to engaging parties in discussions on major plan issues are just some of the ways in which Mr. Kruger and the Debtors' advisors have sought to facilitate a plan process that involved informed substantive negotiations
				¶ 25 During the Third Exclusivity Extension, creditor constituencies who previously refused to come to the table participated in mediation and have begun to recognize that compromise The Debtors hope and expect that such a plan will be negotiated in earnest at the global mediation summit next week.
				¶ 34 In consultation with the Mediator, and at the request of parties in interest, the Debtors have not yet filed these pleadings. However, if these issues are not resolved in mediation, the Debtors will promptly file them
				¶ 41 The Debtors believe that continuing the momentum garnered during the Third Exclusivity Extension and through the mediation is likely the only avenue for these estates to exit Chapter 11 pursuant to a confirmed plan.

My Work Plan includes the following objectives: (a) to provide updated business and financial information to creditors, (b) to engage each of the Debtors' key stakeholders in substantive negotiations regarding major plan issues, and (c) to make progress in mediation While challenging in and of itself, I endeavored to do so without slowing down mediation or the plan process.  ¶ 6 Finally, mediation has taken on a bilateral approach. The Mediator has met with each of the Debtors' major creditors, resulting in serious consideration of a term sheet regarding potential plan structures. Judge Peck has scheduled global mediation sessions for next week in an effort to reach consensus on important plan considerations  ¶ 13. The JSBs previously criticized the mediation because principals of that group had not participated
				Page 6: C. Plan Progress had Been Made in Mediation ¶ 17. The final objective of the Work Plan was to continue making progress in the ongoing mediation. There is no question that mediation under Judge Peck's guidance has been productive and that progress has been made in mediation. It is my understanding that over the course of the Third Exclusivity Extension, Judge Peck has conducted numerous mediation sessions with each of the Debtors' key stakeholders. Since the March 5, 2013 Hearing, these negotiations have also been bilateral, and the parties have addressed the Gating Intercreditor Issues, in addition to the AFI Settlement. Judge Peck has scheduled "all hands on deck" mediation sessions for next week.
				¶ 18. In consultation with the Mediator, and at the request of parties in interest, the Debtors have delayed filing certain pleadings prepared by the Debtors seeking to resolve certain of the Gating Intercreditor Issues. If the global mediation session does not result in consensus, the Debtors intend to file promptly these pleadings to request that the Court adjudicate the Gating Intercreditor Issues. Furthermore, Judge Peck has agreed to assist the Debtors and the Creditors' Committee to work together towards a consensual Chapter 11 plan even if mediation does not result in an AFI Settlement.  ¶ 19. The Trustee generally supports the relief sought in the Motion because the Debtors, Ally Financial, Inc. ("Ally Financial"), the Trustee, and other significant creditor constituencies remain actively involved in the ongoing mediation and plan negotiations in order to reach a consensual resolution to these chapter 11 cases Given that the Court has already extended Judge Peck's term as mediator to and including May 31, 2013, and mediation and plan discussions are ongoing, the Trustee supports a limited extension of the exclusivity period for thirty (30) days  ¶ 2. In the event that mediation reaches an impasse or is otherwise terminated, the Trustee will revisit whether to seek to terminate, or oppose an extension of, exclusivity at that time

284 3569 5/1/20	Statement Of The Official Committee Of Unsecured Creditors With Respect To The Debtors' Motion For The Entry Of An Order Further Extending Their Exclusive Periods To File A Chapter 11 Plan And Solicit Acceptances Thereof	¶ 2. These cases have made significant progress since the Debtors' last request for an extension of exclusivity. Judge Peck's prodigious efforts as mediator have moved the parties much closer to a global resolution that could be embodied in a confirmable chapter 11 plan But even if a global settlement ultimately cannot be reached, the considerable progress made through the mediation provides guidance for formulating, if necessary, a non-consensual plan that preserves claims against AFI. Whichever path this case takes, another brief extension of exclusivity at this time is appropriate.  ¶ 3. Over the past two months, the parties—including, among others, the Debtors, the Committee, AFI, and representatives of certain major creditor constituencies—have worked diligently to prepare for and ultimately participate in the global mediation summit that took place last week These discussions continued throughout the
		Committee, AFI, and representatives of certain major creditor constituencies—have worked diligently to prepare for and ultimately participate in the global mediation
		mediation summit, and, based on the substantial progress achieved towards full consensus, are continuing to date. Recognizing the important role the mediation played in enabling this progress, additional plan mediation sessions have been scheduled for later this week in an attempt to resolve remaining plan issues.
		¶ 4. Terminating the Debtors' Exclusive Periods and allowing third parties to file competing plans while the mediation continues and the bankruptcy appears to be at an important turning point would be unproductive and could imperil the successful resolution of these cases. Indeed, competing plans filed by self-interested third parties could prematurely result in the litigation "Armageddon" this Court feared, as these plans will consume significant attention from estate professionals and likely will not fully or satisfactorily address the Gating Intercreditor Issues in a manner that the Court could approve
		¶ 5. The Committee recognizes this Court's hesitation expressed at the last exclusivity hearing regarding further exclusivity extensions, but submits that the progress made over the past two months through the mediation is precisely the type of showing that warrants an additional, incremental extension to facilitate the process while keeping the parties on a short leash. Importantly, no delay to the chapter 11 cases will result from such an extension. This is because the continued mediation sessions will yield one of two possible outcomes: either the parties will achieve a global resolution of the major outstanding issues over the next week and will use the additional thirty-day window to document and obtain the necessary approvals to implement this resolution, or the mediation will fail to produce consensus and a short extension of exclusivity will provide the Debtors, the Committee, and other parties with time to finalize a chapter 11 plan that contemplates litigation of certain outstanding issues

				Kruger and the Creditors' Committee have worked tirelessly to bring all parties to the table and participate in mediation. Under Judge Peck's watch, the ongoing mediation has galvanized the Debtors' creditors These discussions are continuing in the ongoing mediation.
				¶ 4. Mediation and the earnest plan negotiations must be allowed to continue because these mechanisms are the best chance for achieving a consensual plan
				¶ 6. Even if mediation is not successful in the near term, the Debtors have commenced litigation
				¶ 7 That request is supported by the Creditors' Committee. The Debtors are hopeful that the ongoing mediation will result in consensus
				¶ 15. It is not surprising that the Ad Hoc Group is dismissive of the efforts and achievements made in the mediation. Because the Ad Hoc Group believes that even without an AFI Settlement the Junior Secured Noteholders are oversecured, it has no reason to meaningfully participate in the mediation. The Ad Hoc Group acts like it is the only major creditor constituency. That the mediation was helpful for other participants should be clear to the Court from the support articulated in the Committee Statement and the Wilmington Trust Response.
				¶ 16. With respect to the Ad Hoc Group's proposed confidentiality agreement, as the Ad Hoc Group is well aware, the Mediator was involved directly in discussions concerning its contents. All parties to the mediation, including the Mediator, believed that a form of confidentiality agreement similar to what was requested by the Ad Hoc Group would significantly chill those discussions and make ultimate resolution less likely because it would have required disclosure of the substance of negotiations occurring at the mediation. For the Ad Hoc Group to now accuse the Debtors of preventing discussions is a gross misrepresentation of the facts.
				¶ 17. In addition, because the Ad Hoc Group has not yet expressed any willingness to meaningfully compromise their faulty assertions that they are entitled to postpetition interest, it was unclear to everyone involved in the mediation process what benefit would be achieved by entering into such a confidentiality agreement with the Ad Hoc Group. As noted by the Ad Hoc Group in the Ad Hoc Objection, the Debtors advised the Ad Hoc Group that if it appears a compromise with their group is possible, the form of confidentiality agreement can be negotiated at that point in order to finalize negotiations with principal involvement.
				¶ 20. The allegation made in the Nora Objection that the Debtors have not engaged in plan negotiations with former or current homeowners is incorrect. First, borrower interests (including a member of the Creditors' Committee) have been represented in the mediation and plan discussions

The Ad Hoc Group presents the Court with a distorted view of the mediation. Following his appointment as Mediator, Judge Peck worked tirelessly to guide the Debtors and their major stakeholders towards achieving consensus on major plan issues. Judge Peck was very clear in setting the rules for mediation. The Ad Hoc Group apparently does not like the rules established by Judge Peck for participation in the mediation and now blames the Debtors. Specifically, the Ad Hoc Group accuses the Debtors of failing to negotiate a confidentiality agreement with the principals of the Ad Hoc Group. As the Ad Hoc Group is well aware, the Mediator was involved directly in discussions concerning the contents of the confidentiality agreement. All parties to the mediation, including the Mediator, believed that a form of confidentiality agreement similar to what was requested by the Ad Hoc Group, which would have required disclosure of the substance of negotiations occurring at the mediation, would significantly chill those discussions and make ultimate resolution less likely  ¶ 6. Contrary to the Ad Hoc Group's description of the mediation, substantial progress in fact has been made in plan discussions. Moreover, since the filing of the Exclusivity Motion, the Debtors have made further progress. Mediation and plan discussions have not been limited to "the resurrection of the plan construct contained in the original plan term sheet," as the Ad Hoc Group would have the Court believe. I have been involved in substantive discussions with the Creditors' Committee and other major creditors regarding alternative plan structures with as many consensual elements as possible. In the event that mediation does not result in global resolution, the Debtors are prepared to file a Chapter 11 plan prior to the expiration of their Exclusive Periods or shortly thereafter. While not desirable, the Debtors have prepared for that eventuality.

The only real objections to the Motion are procedural - mainly as to its timing - but none of the Objectors explains why, if the current mediation process fails, the cases are not best served by prompt commencement of litigation aimed at maximizing AFI's ultimate contribution to the Estates. The Committee has committed to await the Examiner's report before filing a complaint against the AFI Defendants. Granting the Motion will not prematurely unleash litigation - it is merely a ministerial step to facilitate preparations for the inevitable next phase of these cases if the mediation is unsuccessful, a matter that should not be unnecessarily delayed in light of mounting administrative expenses in these cases.
				¶ 14. AFI's principal articulated objection to the Motion is that it is "premature" because the mediation is ongoing and the Examiner's report forthcoming. AFI Obj. at 6. Obviously a global settlement would moot this Motion; but the Motion assumes, to the contrary, that the mediation has not succeeded and that the parties and Court wish to press forward promptly to resolve outstanding disputes, maximize the value of the Estates, and conserve administrative costs flowing from further delay. And the Committee has already stated that no complaint will be filed before the Examiner issues his report.

In light of the ongoing mediation, and a full year until the expiration of the twoyear period under section 546(a)(1)(A) to bring such claims, the extraordinary relief requested in the WTC Motion need not be granted at this time. Indeed, Wilmington Trust, on behalf of the Senior Unsecured Noteholders, does not owe any fiduciary duties to other creditors of HoldCo.  ¶ 2. In contrast, the Examiner's report, which will include an analysis of the claims Wilmington Trust seeks to prosecute, is scheduled to be released in the near-term. There simply is no need to authorize a single creditor to prosecute estate claims prior to the release and assessment of the Examiner's report, particularly when the report will provide the various partiesin mediation with an assessment of the strength of their respective litigation positions.
